The Four Elements

1. **Earth**
   - Sit in a chair and place both feet on the ground. Look around you and pay attention to three things in the space that you are in. Ask yourself, what do you see? What do you hear?

2. **Air**
   - Breathe in through your nose counting slowly. Then breathe out through your mouth counting slowly. Continue to take 10 slow breaths.

3. **Water**
   - Close your eyes and imagine that you are drinking a glass of water or eating a piece of fruit. When we have anxiety our mouth becomes dry. When we drink water, we make saliva which turns on our digestive system and helps us to relax.

4. **Fire**
   - Imagine an image of a place that makes you feel warm, safe, and comforted. This can also be a memory of when you felt good about yourself. What do you feel? What do you see in your mind?

---

**How it Helps**

- Helps Us Reduce Stress
- Helps Reduce Our Heart Rate
- Helps Us To Remember Our Senses
- Helps Us Feel Calm
