

The Sanar Institute and Project TRUST present

Enhancing Trauma-Informed Approaches

Building Trauma-Conscious and Person-Centered Practices in Anti-Trafficking Work

Join us for the launch of *Building and Integrating Trauma-Informed Engagement*, a self-paced and online training program designed specifically for stakeholders working in the anti-human trafficking field. This 2 hour event will include a diverse panel of individuals who have completed the ten-module learning opportunity. Each panelist will represent the experiences of various stakeholder roles in the anti-trafficking field and will speak to the practical applications of the curriculum in a direct services environment. Our panelists will include:

Panel One: Curriculum Content Contributors
