

HEAL PROJECT

Afghan Medical Professionals Association of America (AMPAA) will enroll patients without any need of Medicaid, Medicare, or Insurance thanks to the grant funding by U.S. Committee for Refugees and Immigrants (USCRI).

Using Healis Health, all visits will be virtual as we utilize a Telehealth model, all patients can use their smartphone or other technology to connect with Provider.

AMPAA will facilitate the appointments, translations, or any gender specific provider requests to provide comfortable healthcare to the patients. Please contact us to refer any patients!
